12 January, 2015

Esteemed colleagues,

It gives us great pleasure to invite you to the second Scientific Open House to be held in the Horizontes Experimental Forest Research Station of the Area de Conservación Guanacaste on June 2<sup>nd</sup> and 3<sup>rd</sup>, 2015. The title of the open house will be “Communicating the value of the ACG.”

The objective of this open house is to share information among ACG researchers and between ACG researchers and ACG staff. We will be organizing both oral and poster sessions, and encourage submissions that describe past work but also emphasize opportunities for future collaboration.

If you or your students are interested in attending, please get in touch through the link provided below. Please feel free to share the link with others. Our current plans include:

- A poster session for student projects
- Research talks, giving an overview of projects accessible to a general audience
- Talks by members of the program staff of the ACG describing their current initiatives and emphasizing areas of potential collaboration
- Discussion and brainstorming sessions geared towards identifying and describing areas of possible collaboration among groups

To register, please visit the link below. There will be no cost for attending the meeting, however participants will be responsible for food and lodging expenses. We will provide transportation between Santa Rosa and Horizontes and from Liberia to Horizontes on the days of the event.

Following the meeting on the 4<sup>th</sup> of June we will hold a meeting of the board of directors of InvestigadoresACG in which we will discuss elections and the organizational budget. This meeting will be open to anyone interested in the future of iACG as an institution or in taking on a leadership role with iACG going forward.

Thanks, please contact us with any questions, and we look forward to seeing you in the ACG!
