

III iACG/ACG Research Open House, 2019

We are looking forward to the third iACG/ACG Research Open House, scheduled from July 18-19, 2019. The event will take place in Santa Rosa. Please note that we have a new format for the workshop in order to facilitate and maximize interactions and exchanges among participants. The new format includes talks by keynote speakers, lightning talks, and poster sessions, in addition to music, film, and art exhibitions. We are prioritizing time for participants to talk informally at the poster sessions. Therefore, we are soliciting submissions for posters only at this time. We are looking forward to seeing you in Santa Rosa!

In past years the costs of the Open House were covered through funding generated by field courses and grants which are no longer available. The registration fee will help cover coffee, snacks, the BBQ, and other items. If the registration fee in any way prevents your participation, please email us directly at: openhouse@investigadoresacg.org
